# Data Frames

## Adrian

# 14/1/2022

## **Data Frames**

Es una tabla de doble entrada, formada por variables en las

columnas y observaciones de estas variables en filas.

• data() -> Abrir una ventana con la lista de los objetos de datos a los que tenemos acceso en la sesión actual de R

#### Data Frame de Iris

## \$ Species

```
df = iris
# Obtener las 5 primeras y 5 ultimas lineas
head(df, 5)
     Sepal.Length Sepal.Width Petal.Length Petal.Width Species
## 1
              5.1
                          3.5
                                       1.4
                                                   0.2 setosa
